## Atlas of Community-Based Monitoring & Traditional Knowledge in a Changing Arctic

Focus

About

Welcome

Login

### Circumpolar Arctic

search the atlas

Welcome to the Atlas of Community-Based Monitoring in a Changing Arctic. Arctic communities are actively involved with observing social and environmental change; this atlas was designed to showcase the many community-based monitoring (CBM) and traditional knowledge (TK) initiatives across the circumpolar region.

If you are involved with a CBM initiative, we hope you will consider joining the atlas.

This site also features a map of Inuit Mental Health and Wellness initiatives.

The atlas was brought to you by these partner institutions:

Geomatics and Cartographic Research Centre

ᓄᓇᓴᓴ  
Nunaliit
